JACOB MWENDWA MUSYOKI

IT Support & Infrastructure | Systems Administration | Software Development
Nairobi, Kenya | Phone: 0723 873 165 | Email: jacobmwendwa28@gmail.com

PROFESSIONAL SUMMARY

Computer Science graduate with practical experience in ICT technical support, computer applications training, database administration and technology project coordination. Skilled in troubleshooting hardware and software issues, installing and configuring computers and applications, supporting users, maintaining IT infrastructure and documenting technical procedures. Foundation in Python, Django, PHP, MySQL, HTML and CSS, with project experience using PostgreSQL, Git, GitHub and web application deployment tools. Strong communicator who explains technical concepts clearly to users of different technical abilities. Seeking to contribute to reliable IT operations, systems support, infrastructure management and software development.

CORE SKILLS

- **IT Support and Troubleshooting:** Hardware and software troubleshooting, first-line technical support, application installation, configuration, user assistance
- **IT Infrastructure:** Computer deployment, operating-system support, network maintenance, routine updates, backups, IT inventory management
- **Systems Administration:** User account setup, access permissions, software configuration, basic systems maintenance
- **Networking:** Basic network configuration, maintenance and troubleshooting
- **Database Administration:** Database maintenance, data organisation, accuracy and accessibility; MySQL, PostgreSQL
- **Programming and Web Development:** Python, Django, PHP, HTML, CSS, foundational JavaScript
- **Development Tools:** Git, GitHub, Render
- **Documentation and Communication:** Technical documentation, support records, user guidance, teamwork, task coordination
- **ICT Training:** Computer applications, digital skills, practical guidance for students and staff

PROFESSIONAL EXPERIENCE

Freelance IT Support and Software Developer
Self-employed | *May 2026 – Present*

- Provided freelance IT support and technical services to clients, including troubleshooting, setup and user assistance
- Designed and developed web applications independently, including the FleetTrack fleet management system built with Python, Django and PostgreSQL
- Deployed applications online using Git, GitHub and Render, and managed source code and database configuration
- Continued building technical skills through hands-on project work

ICT Technical Support Officer
Decho Company | *June 2025 – April 2026*

- Provided first-line technical support to staff, helping them use computers, software and organisational systems effectively
- Diagnosed and resolved hardware, software and network issues through remote and on-site support
- Installed, configured and deployed computers, applications and related IT equipment
- Created user accounts and managed access permissions while maintaining accurate access records
- Maintained IT inventory, networks, servers and infrastructure, including routine updates and backups
- Documented troubleshooting procedures, recorded recurring technical issues and recommended improvements to support processes
- Explained technical issues and solutions clearly to users with different levels of technical knowledge, helping minimise disruption to operations

Project Manager (Attachment)
Makueni Tech & Innovation Hub | *August 2023 – October 2023*

- Led and coordinated a project team developing an Innovation Hub Management System to automate and track hub operations
- Organised team activities and coordinated project tasks to support delivery of a working system for hub staff
- Supported collaboration and communication among team members throughout project implementation

Industrial Attaché
Makueni ICT Tech & Innovation Hub | *May 2023 – August 2023*

- Trained IT students and staff on standard computer applications and everyday system use
- Provided ICT technical support and assisted with maintaining the hub's network
- Assisted in planning, coordinating and managing technology projects and systems
- Supported users in developing practical computer skills and resolving common technical difficulties

Database Administrator
Helping Hands Foundation | *August 2022 – October 2022*

- Managed and maintained organisational databases to support accurate, organised and accessible information
- Assisted in maintaining data quality and supporting the availability of organisational records

TECHNICAL PROJECTS

FleetTrack – Fleet Management System (Personal learning and development project)
Technologies: Python, Django, HTML, CSS, PostgreSQL, Git, GitHub, Render

- Built a Django-based web application with modules for organising fleet information and operational activities
- Developed a dashboard with grouped, collapsible navigation to improve access to different modules
- Worked with database configuration and application deployment; used GitHub for source control and Render to publish online

Live demo: https://fleettrack-e1bn.onrender.com
Source code: https://github.com/jacobmwendwa/fleettrack

Health Management System Using Blockchain Technology (Academic research and prototype)
Technologies: Python, JavaScript, React, Solidity, Ethereum, Truffle, Ganache, MetaMask, Web3

- Implemented a basic Python blockchain simulation using SHA-256 hashing and a proof-of-work mechanism
- Explored Solidity smart contracts and local Ethereum development using Truffle and Ganache
- Experimented with a React and Web3 interface for connecting to and displaying an Ethereum account

Status: Academic prototype with partial implementation; a complete healthcare-records system and production-ready security were not verified.

Task Manager Web Application
Technologies: Python, Django, MySQL

- Implemented user registration and login functionality
- Developed a personal task dashboard for managing tasks, connected to a MySQL database for data storage and retrieval

EDUCATION

Bachelor of Science in Computer Science
Karatina University | *September 2020 – October 2024*

Kenya Certificate of Secondary Education (KCSE)
Kisayani High School | *2015 – 2019* | *Grade: B*

Kenya Certificate of Primary Education (KCPE)
Ulilinzi Primary School | *2006 – 2014* | *Score: 379 marks*

TRAINING AND ADDITIONAL QUALIFICATIONS

- Ajiry Digital Training – Personal Branding, Financial Management and Mental Health
- StemXposure Architecture Camp
- Industrial Attachment Recommendation – Makueni ICT Tech & Innovation Hub
- Valid driver's licence

LANGUAGES

English (Fluent) | Kiswahili (Fluent) | Kamba (Fluent)
